

KOMPERDELL

PROTECTION #1

WE ARE A LEADER IN INNOVATIVE DEVELOPMENTS FOR PROTECTORS IN WINTER-, MOTORCYCLE-, BIKE- AND EQUESTRIAN SPORTS FOR MORE THAN 20 YEARS.

Komperdell is the only brand to develop not only the protective technology but also the appropriate garment. This results in a perfectly harmonizing protective system that fits perfectly and does not have to compromise on safety and comfort.

AWARD WINNING PROTECTION TECHNOLOGY

Our protectors offer maximum safety, have the biggest continuous protection zone and are leading in residual force values. In case of a fall our protectors absorb up to 93% of the impact energy due to the long-lasting, innovative layered structure of the protectors, which does not lose its effectiveness even years later. Our protector technology has already won more than 50 international awards.

ONE-STOP INNOVATION

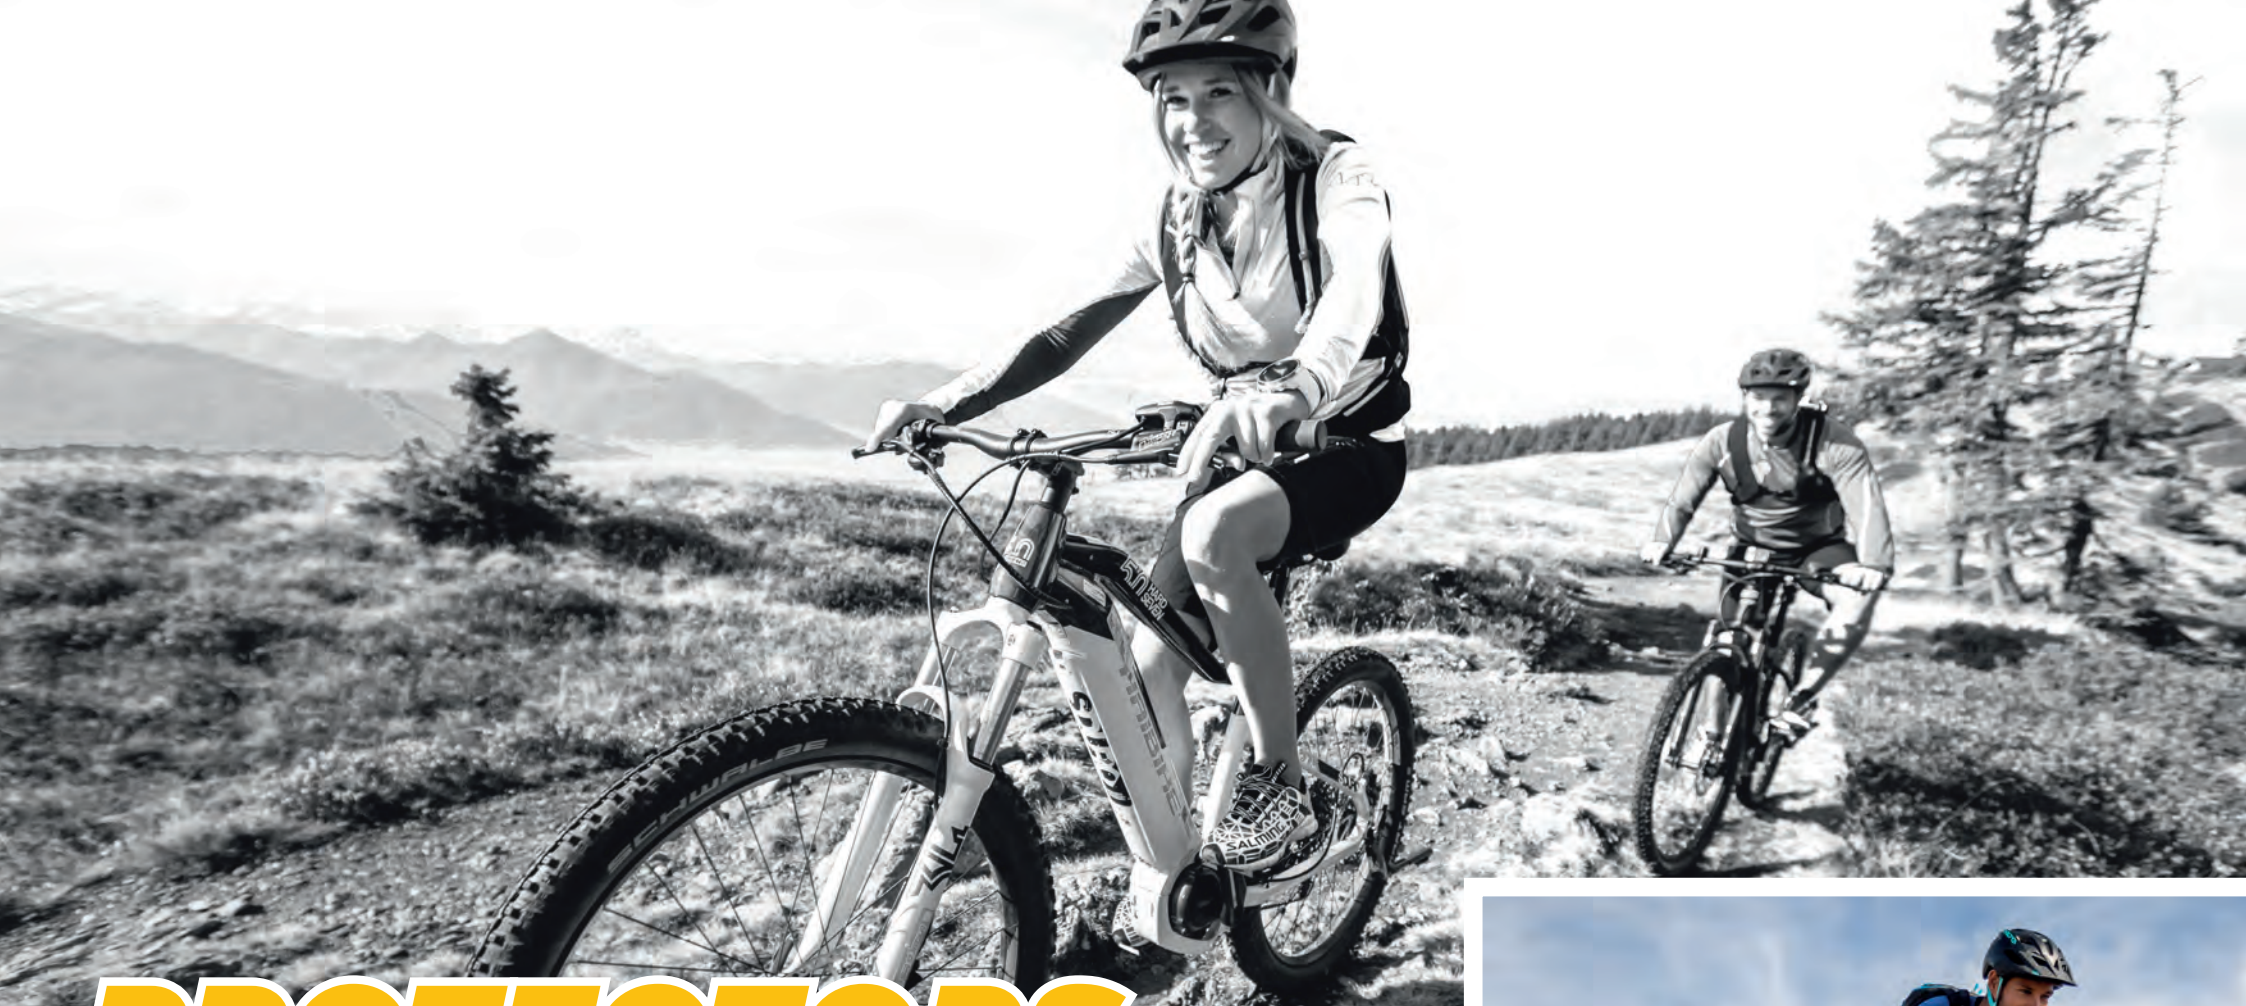

The protector as well as the garment are developed in our headquarters in Mondsee from the first idea up to the final product. Apart from our own brand, we develop, design and manufacture protectors for a number of leading brands in the sports and motorcycle sector.

25 YEARS OF KNOW-HOW

For more than 20 years we develop for and with leading brands of the motorcycle industry. Thus we can use our valuable know-how of the most extreme field of use for efficient protection garments also for winter-, equestrian- and bike sports.

PROTECTORS

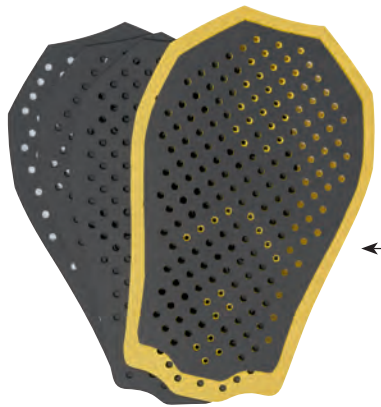

WHY A KOMPERDELL PROTECTOR?

We are the only brand to not only develop and manufacture the garment but also the protector itself. This gives us the opportunity to perfectly match protector and garment. Over the years we have been able to constantly improve our protector systems, so that our new protectors are once again 25% lighter and more flexible.

CROSSFLEX ATHLETIC

A COMPLETELY NEW PROTECTOR SYSTEM

NEW PROTECTOR FOAM
our new foam is up to 25% lighter with the same impact protection

ABSORBS UP TO 93% OF THE IMPACT ENERGY
top residual force

UNLIMITED MULTIPLE IMPACT CAPABILITY

CLEVER MULTILAYER SYSTEM
breathable and flexible, fits perfectly on the back

WASHABLE
our products can be washed without problems

1 A COMPLETELY NEW PROTECTOR

As the only protector brand we design, develop and manufacture our protector inserts by our own. For the new generation of our Cross Flex protectors we have developed a new protector foam that is 25% lighter with the same impact protection and our typical multi-impact capability.

2 25% LIGHTER, MORE FLEXIBLE AND PERFECT BREATHABLE

Due to our typical multilayer construction and the seamless integration the protector fits perfectly in the garment. Additional 3D Mesh on the protector provides an optimal ventilation on the body. We don't make compromises on safety and comfort on our Cross Flex protector.

BIKE & MOTORCYCLE

WHY DO YOU NEED A BACK PROTECTOR?

Especially in the extreme application areas of motorcycling and biking, not only an optimally guarding protector is crucial, but also a pleasant wearing comfort and good ventilation. No other fulfils the highest protection values and is at the same time as comfortable to wear as a Komperdell protector!

1 BALLISTIC SET EN 1621-2 – LEVEL 2

Perfectly thought out – our 2-in-1 strap-on protector. The multi-layered back protector and the removable chest protector ensures maximum safety while the slim design guarantees breathability and ventilation, especially in summer.

2 MTB-PRO PROTECTORPACK EN 1621-2 – LEVEL 2

The MTB-Pro Protectorpack is the ideal companion for long mountain bike tours thanks to sufficient storage space and many well thought-out details. The back protector is light and flexible, and thanks to the multiple layers of adaptive dual-density foam, it achieves the highest protection values.
