

A smiling hiker in a blue jacket and orange beanie is climbing a snowy mountain slope. The hiker is wearing a blue puffy jacket, a bright orange knit beanie with a pom-pom, and black gloves. They are using two trekking poles with orange handles and black shafts. The background shows a rugged, snow-covered mountain landscape with rocky outcrops and a clear blue sky. The overall scene is bright and energetic.

INNOVATION

runs in our blood and a lot has changed since our first aluminum racing poles. But we do not stop here: Our future holds even lighter poles and even better materials, which will enable our athletes to be one step ahead of their opponents.

TEAMWORK WITH OUR ATHLETES

We attach importance to a close cooperation with our top athletes to enhance product development. The poles' low weight and the best possible quality explain their success.

RACING WORLD CUP

We design, develop and
manufacture our own
carbon shafts.

SOLID SCREW JOINT
for extra tight fit and no twisting
of the punch protection

PUNCH PROTECTION
made of highly resistant,
thermoplastic resin,
absorbs hard impacts

STRAP FASTENING
makes tearing off the
strap nearly impossible

SHRINKING TUBE
for reinforcement of the tube

WORLD CUP EQUIPMENT
highly rigid materials and precise
manufacturing for highest demands

SKICROSS STRAP
with free hands at the starting
block catapulted into the race

CARBON SHAFTS
for zero weight and
maximum performance

BASKETS & TIPS
fixed with extra
tight cement

**NATIONALTEAM
CARBON SLALOM 12,3**

Sizes: 100 - 140 cm
(in 5cm steps)

Features:

- * technical grip with rubber & punch cover World-Cup style
- * race strap
- * carbon, Ø 12,3 mm
- * mini race basket
- * tungsten/carbide flex tip

art. # 147 32 51-48

**NATIONALTEAM
CARBON GS 12,3**

Sizes: 105 - 140 cm
(in 5cm steps)

Features:

- * race grip Duplo
- * race strap
- * carbon, Ø 12,3 mm
- * downhill basket
- * tungsten/carbide flex tip

art. # 147 32 54-48

**NATIONALTEAM CARBON
SKICROSS 12,3 MM**

Sizes: 105 - 140 cm
(in 5cm steps)

Features:

- * race grip Duplo
- * skicross strap
- * carbon, Ø 12,3 mm
- * mini race basket
- * tungsten/carbide flex tip

CLOUD SERIES

The lightest carbon poles – 40% lighter

1

CARBON

The lightest alpine poles in the world – 40% lighter compared to regular carbon poles. Komperdell is the only manufacturer with an in-house carbon and carbon pole production.

2

EXTREMELY LIGHT

You will feel immediately what makes this pole so unique – extreme lightness, combined with a fantastic swing momentum!

3

NOBLE APPEARANCE

The poles highlight every outfit with their pure design, which makes every carbon fibre visible. Available in three noble colour combinations.

ALPINE CLOUD

The lightest alpine poles on the market – 40 % less weight

CARBON SNOWSHOES

The world's first
full carbon snowshoe.

100% CARBON

50% lighter – only 593 grams

CARBON AIR FRAME

lightest hollow construction

PURE CARBON

completely made in one piece

LIVE ACTION HINGE

adds a spring to your step

AGGRESSIVE STEEL CLAWS DIRECTLY INTEGRATED INTO THE FRAME

give you tons of traction

To save up half the weight on a snowshoe, we not only had to change from aluminum to carbon but we had to completely rethink the way how snowshoes are built. Conventional snowshoes always consist of frame with a separate decking. For our carbon snowshoe both, frame and decking, are laminated in one single step. This made our snowshoe much lighter and stronger. Having half the weight on your feet makes all the difference – each step becomes so much easier you will find it hard to believe, you have to feel it.

SNOWSHOE CARBON

50% less weight and incredible traction on ice and hard packed snow.

EASY STEP-IN BINDING
guarantees quick entry, firm seat, nonetheless comfortable, not constricting fit

3 YEAR SERVICE

CARBON AIR FRAME 25

Sizes: S, M, L

Features:

- * integral built carbon decking
- * especially light, hollow-core carbon frame
- * ice-rail claws for optimal traction
- * heel lift
- * Easy step-in binding with quick-fastener, fitting all sizes and types of boots and offering perfect hold

art. # 6508-10

FXP FOLDING POLE

The first and only self deploying folding pole!

OutDoor
by ISPO

Outstanding Outdoor

Gold Winner 2019

an ISPO Award

UNFOLD

1

30% LIGHTER

Our newly developed FXP folding poles are up to 30% lighter. Due to the reduction of parts in the folding mechanism from 11 to 3 there is a significant difference in weight and handling.

RELEASE

2

THE FIRST FOLDING POLE FOR ALL SEASONS

The fixed mechanical connection of the parts prevents slacks between the pipe segments and thus no disturbing noises can occur. With the FXP poles there is no more force on the push button.

READY GO

3

THE FASTEST FOLDING MECHANISM

The new Komperdell. FXP pole deploys completely by itself and provides a secure and solid connection between the individual segments. The poles are suitable for hiking, trail running, ski touring or fly fishing - finally a pole that really works all year round!

TOURING FXP

When released, our new FXP Folding pole deploys completely by itself – pure genius.

WINTER PROTECTION

PIONEER - TRENDSETTER - MULTIPLE AWARD WINNER

WASHABLE

our protectors can be washed without any problems

HIGHEST DURABILITY

the innovative combination of various foam layers makes our protectors extra strong and durable against external forces

ABSORBS MORE THAN 93% OF THE IMPACT ENERGY

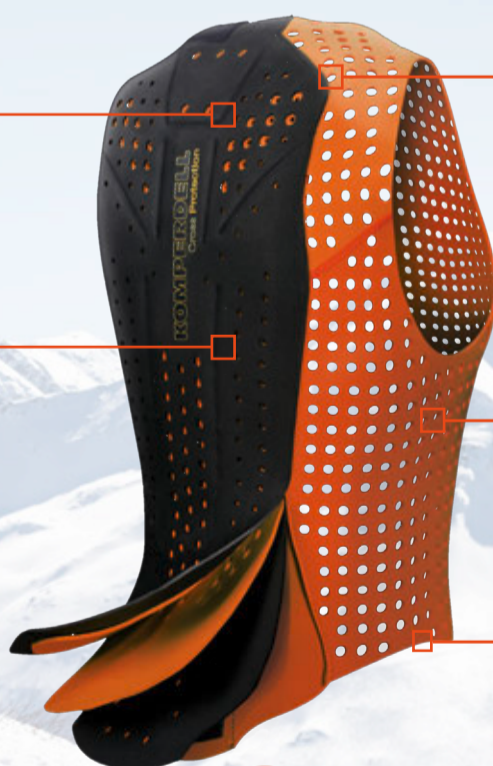

The impact forces are absorbed by a combination of various different layers

THERMO FIT - ADAPTS THROUGH BODY TEMPERATURE

– when worn, the dual density foam adapts to the body contours

MAXIMUM BREATHABILITY

provided by smart materials and a breathable construction

1

PIONEER

For more than 20 years we have been developing protectors for the world's leading motorcycle brands. Through the close cooperation with our customers we have gained invaluable know-how on how to best protect our customers. Like no other brand we have influenced the market for modern protection but we always stayed true to our mission to develop and improve our protectors to make them safer and easier to wear.

2

TRENDSETTER

We are the only brand to develop and manufacture not only the garment but the protector itself. This unique know-how allows us to develop the protector and garment as one cohesive unit. This makes our protectors much better to wear without sacrificing their protective properties. Today we are able to integrate our protectors into the lightest garments and still provide the best protection on the market.

3

AWARD WINNER

No other brand has won as many awards in so many different fields as we did. More than 30 awards for our motorcycle, winter sports, bike and equestrian protectors give proof to our claim to provide the best possible protection on the market.

PROTECTION ATHLETIC MEN

Our safest protectors with additional chest protection.

CASUAL PROTECTION

A completely new way of combining protection and comfort.

EVEN BETTER CONCEALED

the new Cross Flex Protector provides comfort and safety without any compromises

CLEVER

integrated into a casual hoody – it's so easy to wear that you hardly feel it

1

CONCEPT

Through many and long conversations with our customers we learned that many customers do not want to wear the protectors as a separate piece but would prefer to have the protective technology smartly integrated into an existing layer. The protector becomes an added benefit to a layer they already wear.

2

FINE TUNING

As the only brand we design, develop and manufacture both our protective technology and our apparel. This unique know-how gives us the opportunity to design both the protector and the garment as one single integrated piece. This makes the protector part of the garment and no longer a separate piece.

3

THE PERFECT PROTECTOR

Our mission has always been to provide the best protection possible. This is our obligation to our customers and something we are not willing to compromise on. Although our new casual protectors with the new Cross Flex System are so light that you almost don't feel them, they still provide the same quality of protection as our athletic protectors.

NEW! CROSS FLEX PROTECTOR

30% lighter and extremely flexible

ABSORBS MORE THAN 93% OF THE IMPACT ENERGY

The impact forces are absorbed by a combination of various different layers.

THERMO FIT - ADAPTS THROUGH BODY TEMPERATURE

– when worn, the dual density foam adapts to the body contours

PROTECTION CASUAL

Protection that's great to wear in a cool new optic.

BIKE PROTECTION

A new style of protection for urban bikers and mountainbikers.

1

THE BEST PROTECTOR

20 years of experience as market leader for motorcycle, wintersports and equestrian protectors give us the know-how and experience to develop a truly unique concept for a bike protector. We are the only brand to develop and manufacture our own protector technology. This gives us the unique opportunity to develop the pack and protector as one cohesive unit.

2

WELL THOUGHT SYSTEM

Whereas protectors are standard in motorcycle and skiing, the concept is relatively new to the bike market although the need for protection is probably greater than in one of the previously mentioned fields. We completely rethought the conventional concept of a bike protector. Instead of integrating a protector plate into an existing backpack, we concentrated all our energy on developing an ergonomically perfect protector and then combine it with a smartly designed pack.

3

UNIQUE PRODUCT

Our Komperdell Protector Pack guarantees best comfort and maximum safety. The protector is soft and flexible because of the dual density foam that adapts to the body contours when worn. We offer safety and protection and a variety of extras e.g. wasser reservoir, storm jacket or raincover. Our protectors are multi impact compliant and washable.

We are Komperdell! Passion and honest quality made in Austria.

WE STILL MANUFACTURE IN AUSTRIA

We are proud that we still manufacture in Austria. Each of our products is created from the initial idea to the product ready for series production in our main factory in Austria/Mondsee. For us, sustainability means a conscious, long-term approach to our environment - to nature, employees, business partners and above all to our customers.

INNOVATION

The urge to constantly question ourselves how we can become even better, the courage to take unconventional paths and the passion for our customers to offer the best product and the best service are what sets us apart from others. The best athletes in the world trust in our products and we want to pass on exactly this service and quality to our customers.

HONESTY AND SERVICE

From the initial idea to the finished series each of our products is 100% manufactured in our headquarters in Austria. The satisfaction of our customers is our constant motivation. We do not want to only produce top products, but also offer the best service. Our free 3-year repair service shows this. Everything we do, we do with integrity, credibility and honesty. In every Komperdell product you will feel our passion for highest quality and the heart and soul of our team.
