Komperdell is for me the very best choice for years.

Henrik Kristoffersen
Henrik Kristoffersen

© GEPA-PICTURES

Top-level sport has always been an integral part of our DNA. Together with our athletes, we are constantly developing new and better solutions to always be one pole length ahead.”

This year, we're launching a firework of innovations. Get ready for a year full of new products that will excite you."

Thomas Roiser, CEO KOMPERDELL

CUSTOMIZED POLES – 100% MADE IN AUSTRIA

Apart from our own brand we develop, design and manufacture individual solutions for more than 40 leading ski and protection brands. Our production in Austria is not only very sustainable, but offers highest flexibility and rapid response times. Our customers benefit from years of know-how and cutting-edge technology. We are also happy to create a customized product exclusively for you, tailored to your specific needs and desires.

ZERO WASTE PROGRAM

We do not believe in labels and certificates. Our approach to a more sustainable production is simple and honest. Our goal is to produce our poles without a single gram of waste by ensuring that all materials are recycled and returned to the production cycle directly on-site.

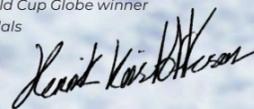

REPAIR SERVICE

We launched our 3-year free repair service more than 15 years ago. No questions asked – no matter if it is our customers' fault or ours. Our service is part of our belief that quality products must be backed by outstanding service.

CHAMPION'S CHOICE

We are the most successful racing brand in history.
The world's best athletes trust in us for decades!

AIRFOAM GRIP

THE REVOLUTION IN GRIP TECHNOLOGY

Combining the best of two worlds, the new Airfoam grip offers the lightweight comfort of foam and the secure grip of rubber. Thanks to a unique foaming process, the grip is 40% lighter than conventional rubber grips without sacrificing any grip. Super soft but providing best grip – a grip feeling that you can't find anywhere else.

Easy handling
Simply thread the ring over the handle head and off you go!

Uncoupling made easy
Pull the hand forwards over the grip head. Uncouple the ring with a short pull.

SPECIAL GRIP SHAPE
to adjust conventional touring bindings

GRIP GEOMETRY
guarantees rock-solid hold of the strap

NEW SIDEWINDER-STRAP SYSTEM

POWER LOCK 3.0

THE STRONGEST LOCK ON THE MARKET

"The strongest lock and best reliability I have ever seen in a locking mechanism. An indispensable companion especially in demanding terrain – simply outstanding technology from Komperdell."

Gerlinde Kaltenbrunner, professional mountaineer

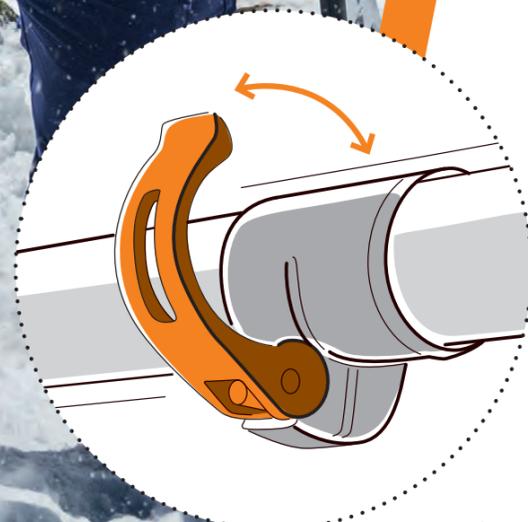

100% ALUMINUM
both the clamp and the fastener are made of 100% forged aluminum

THE STRONGEST LOCK
with holding power up to 200kg

SUPERIOR CLAMPING FORCE
without readjusting

HIGHEST PRESSURE LOAD
in test comparisons

NO LOSS OF HOLDING POWER
under conditions of increased humidity, cold, or heat

Easy handling
of the locking lever guarantees rapid adjustability in extreme situations.

C2 ULTRALIGHT

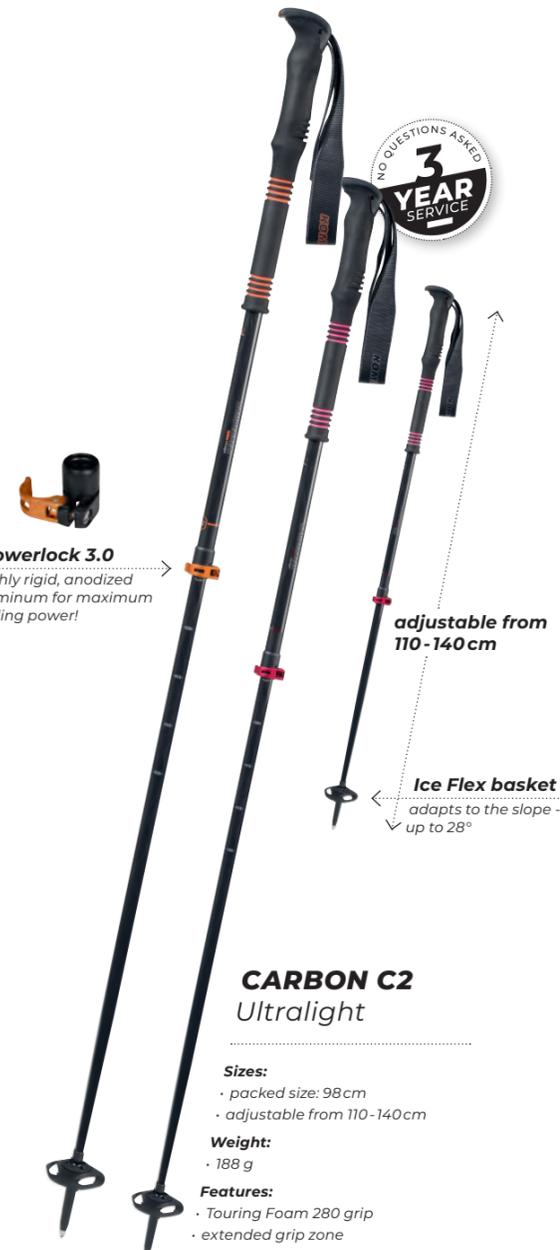

We are the expert for carbon poles. We are the only brand developing, designing and manufacturing our shafts in our own facilities. On average, our poles are up to 25 % lighter than comparative poles on the market.

the lightest touring pole – 188 g only

SNOWSHOES

THE WORLD'S LIGHTEST SNOWSHOE

Weighing just 691 grams, this innovative carbon snowshoe is incredibly strong. Its one-piece decking and hollow core air frame provide superior power transmission and an exceptionally light feel.

Best binding on the market.

QUICKLOCK BINDING

featuring a twist-lock mechanism for easy handling and a safe hold

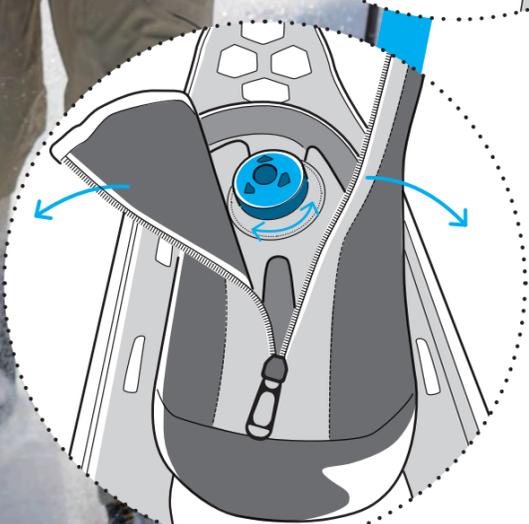

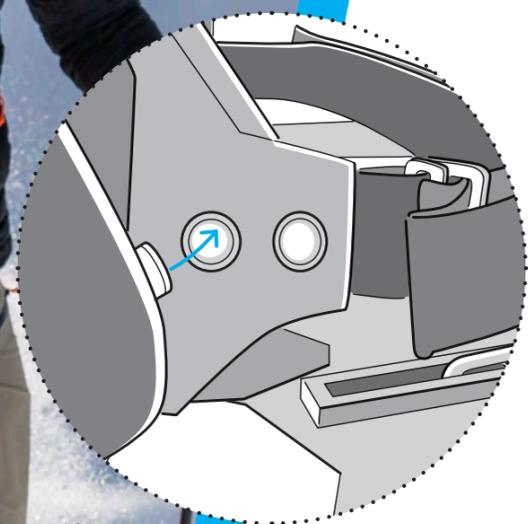

50% LESS WEIGHT
thanks to an ultralight Carbon hollow core frame

ICE-RAIL CLAWS
for ultimate grip on ice or hard-packed snow

DECKING AND FRAME MADE OF ONE PIECE
for maximum performance at minimum weight

ONLY 691 GRAMS

Wet feet? Out of the question!
Warming toe cover with ZIP access for binding adjustment. Super-fast push-button installation on all Komperdell snowshoes.

CARBON SNOWSHOES

100% Carbon! We offer the lightest snowshoe on the market. The result is truly amazing - 50 % less weight on your foot makes all the difference! You will feel it with every single step.

QUICKLOCK BINDING

super easy to adjust, fitting all sizes and types of boots and offering perfect hold

CARBON AIR FRAME 25

Size Binding:

- M, L

Weight:

- 691 g/piece

Features:

- integral built Carbon decking
- hollow-core Carbon frame, 50% less weight
- ice-rail claws – incredible traction on ice and hard packed snow
- new Quicklock binding – super easy to adjust, fitting all sizes and types of boots and offering perfect hold
- Neoprene Toe Cover

PROTECTION

MAXIMUM PROTECTION WITH BEST WEARING COMFORT

We are the only brand to develop our proprietary protective foam as well as the garment on our own. This results in a perfectly harmonizing protection system without sacrificing safety and comfort.

Distribution of the impact forces
Protective zone over the entire back.

Flex-Fit system
Automatic width adjustment with full torso protection.

TOP RESIDUAL FORCE VALUES
absorbs up to 93% of the impact energy, independent of temperature and humidity

LARGEST PROTECTION ZONE
providing continuous protection from the 7th cervical vertebra to the coccyx

WASHABLE
without problems at 30°

100% BREATHABLE
thanks to generous perforation and integrated air-mesh

UNLIMITED MULTI-IMPACT CAPABLE
does not have to be replaced after a fall

UNIQUE WEARING COMFORT
thanks to a clever and flexible multilayer system hardly noticed when worn

25% lighter
with the same level of impact protection thanks to a new protective foam

ISPO
AWARD
2024
WINNER

“Every cut is the first step on the way to a masterpiece - from the first sketch to the finished product.”

Peter, Elisabeth and Klara, Design & Development

AWARD WINNING PROTECTOR TECHNOLOGY

Our technology is market leading. We are the only brand to develop our own protector. Both the foam and the protector are proprietary. We have the lowest residual force levels and the largest continuously protected area. Our protector technology has already won more than 50 international awards.

ONE-STOP INNOVATION

The protector as well as the garment are developed in our headquarters in Mondsee. We control every step from the first idea up to the final product. In addition to our own brand, we develop, design and manufacture protectors for some of the world's leading motorcycle and workwear brands.

25 YEARS KNOW-HOW

We have always been true innovators and market leaders. When we started with protection 25 years ago, we created the look and feel of the modern protector as we know it today. We were the pioneer brand offering an alternative to the hardshell protector and have always led the market in both comfort and protective properties.

PROTECTION

Ultimate protection. These models offer best protection for the safety-conscious on- or off-piste skier. Choose from 360° full torso protection or protective inserts on chest or sides.

FXP TRAIL

MINIMALISTIC. PURISTIC. EFFICIENT.

"The wow effect in every race! As soon as I got the chance to test the prototype, I knew I need this stylish pole as quickly as possible! Super light, highly functional, handling in seconds - exactly what I have always imagined."

Jens Kramer, professional trail runner

Can be used in seconds
by simply hooking the loops
in the grip head.

Decoupling made easy
Pull your hand forward over the grip
head. Release the ring with a short pull.

READY TO USE WITHIN SECONDS
by simply hooking in the straps

ROBUST GRIP HEAD
to secure a safe hold

CHANGEABLE GRIP TAPES
to style your pole according to your
preferences

INNOVATIVE FLY STRAP SYSTEM
for maximum power
transmission

**EXTREMELY SMALL
PACKED SIZE**
fits in conventional quiver

**IMMEDIATELY READY
TO USE**
thanks to our award-winning
self-deploying FXP mechanism

ISPO
AWARD
2024
WINNER

FXP CARBON ULTRA

The Carbon FXP trail running poles set new standards in terms of performance, comfort and design. Completely rethought and reduced to the essentials - exactly what performance-oriented trail runners with highest demands are looking for.

**The combination makes the difference:**

Only 14mm shaft diameter and the self-deploying FXP mechanism guarantee a smooth handling when pulling the poles out of the quiver. Ready to use in a matter of seconds.

+ ADVANTAGES AT A GLANCE

- + particularly small pack size, fits perfectly in conventional quivers
- + the minimized shape saves weight and ensures agile handling
- + our innovative Fly strap system guarantees easy handling and maximum power transmission
- + thanks to the patented FXP folding mechanism, the pole unfolds completely by itself when released

CARBON

LIGHTER - STRONGER - KOMPERDELL CARBON

Unmatched carbon expertise. We are the only manufacturer with the knowhow to develop and manufacture our own carbon shafts. Carbon isn't just carbon. To achieve the perfect balance between lightness, stiffness and break resistance, we match the ratio of carbon fibre and resin perfectly according to the area of application. A cross-country pole for example needs to be especially stiff to ensure optimal power transfer, while for a trekking or touring pole, weight is the top priority.

STRONG AS STEEL

Compared to aluminium, carbon fibers offer a significantly lower density. This makes carbon especially light, but still as hard as steel.

FIBER LAYERING

By adjusting the fiber lay-up, we control the shaft's stiffness, break resistance and weight.

IT'S ALL ABOUT THE RIGHT MIX

We develop our shafts on our own and perfectly balance the ratio of fiber and resin.

SUPERIOR RAW MATERIALS

The spectrum of carbon fibers ranges from inexpensive pens to the most exclusive fibers used in aerospace. For our products, we exclusively use the highest quality carbon fibers used for aerospace.

WOMEN EDITION

Ladies' choice: a superior companion for your outdoor activities - trekking poles from our women edition. A perfect mix of design, fashion and highest functionality combined with lightness and a small packing size. A pole that offers all you could wish for!

WALKING SINGLE STAFF

"Much more than just a walking aid. My Komperdell walking staff has, unlike my knee, never let me down. The ergonomically shaped cork grip keeps me grounded and offers a comfortable grip feeling."

Johann Tuns, nature loving pensioner

WALKING SINGLE STAFF

WALKER Powerlock Compact

Sizes:
· packed size: 46 cm
· adjustable from 75-100 cm

Weight:
· 259 g

The best part of our quick and easy service is to always surprise our customers and exceed their expectations."

Stefanie, Stojadin and Claudia (customer service and repair department)

REPAIRING INSTEAD OF THROWING AWAY

Our commitment to sustainability goes beyond environmentally friendly production methods and recycled materials. We take after-sales responsibility seriously through our unique repair service.

INNOVATIVE PIONEERS

We introduced our free 3-year repair service more than 15 years ago, long before the term sustainability became popular. We are still absolute pioneers here today.

WORLDWIDE UNIQUE

We repair all telescopic poles no matter what happened – without receipt and no questions-asked. Regardless if it's our customers fault or ours – we are happy to take care of it and contribute to an extended product life-cycle and to protect our environment.
